

HOW TO KEEP YOUR PATIENTS FROM BITING OFF MORE THAN THEY SHOULD CHEW.

Introducing the BiteGard™ from Hudson RCI. A cost-effective solution to the problems caused by patients who clench their teeth during or after surgery. The BiteGard's rigid, yet compressible, design prevents damage to LMAs, valuable medical equipment, dental work and your fingers, while its convenient handle provides quick, simple insertion and removal. The BiteGard from Hudson RCI.

Finally, a device your patients can safely sink their teeth into.
